ABOUT US

Zhejiang Aoma Elevator Company is located in Nanxun, Huzhou, Zhejiang. Nanxun is a veritable smart elevator city. Smart Town takes the overall elevator manufacturing as its core, integrates leading domestic elevator parts companies, introduces high-end technical talents, realizes technological innovation, and builds a leading elevator industry in China.

We are an elevator company that mainly integrates design, manufacturing, sales, installation and after-sales service. Our products include: passenger elevators, home elevators, sightseeing elevators, moving walks, escalators, car elevators, hospital elevators, shopping cart escalators and other types of electric and various elevator accessories, to provide you with choices.

The company has high-end manufacturing equipment, introduces advanced German technology, and specializes in creating higher-end and safer elevator products for you. We always adhere to the height of the international elevator industry, introduce advanced equipment at home and abroad, strive to improve production efficiency and product quality, and only provide you with better and safer elevator products.

The company always puts the customer first and takes every elevator seriously. We will tailor it for you according to the different needs of customers to meet your needs for elevator use.

We focus on producing high-quality elevators to serve you. Safety is our first pursuit of product quality. We always insist: "Safety: There is only a starting point, no end."

Our Mission

We believe in proving ourselves by consistently performing and delivering on our promises, and we are committed to provide total customers satisfaction and achieve leadership in chosen markets, products and services across the globe, through excellence in technology, based on world-class research and development.

our vision is to achieve market leadership through providing exceptional value to our customers. In addition to providing competitive products, we must deliver industry leading services and world class customer care. In order to do so our business processes must be designed to serve our customers in a hassle free and responsive manner. We Determine to provide better quality.

Our Vision

Our Values

•SAFETY

Safety is our highest priority and may never be compromised.

•EXCELLENCE

We strive to be best-in-class and are proud to put our name to what we do.

•INNOVATION

We proactively explore new territory to benefit both our clients and our company.

•COMPLIANCE

We always comply with laws and regulations and work to serve our clients and stakeholders.

•QUALITY

No compromises with quality. We are manufacturing our products strictly following international standard.

•RELIABILITY

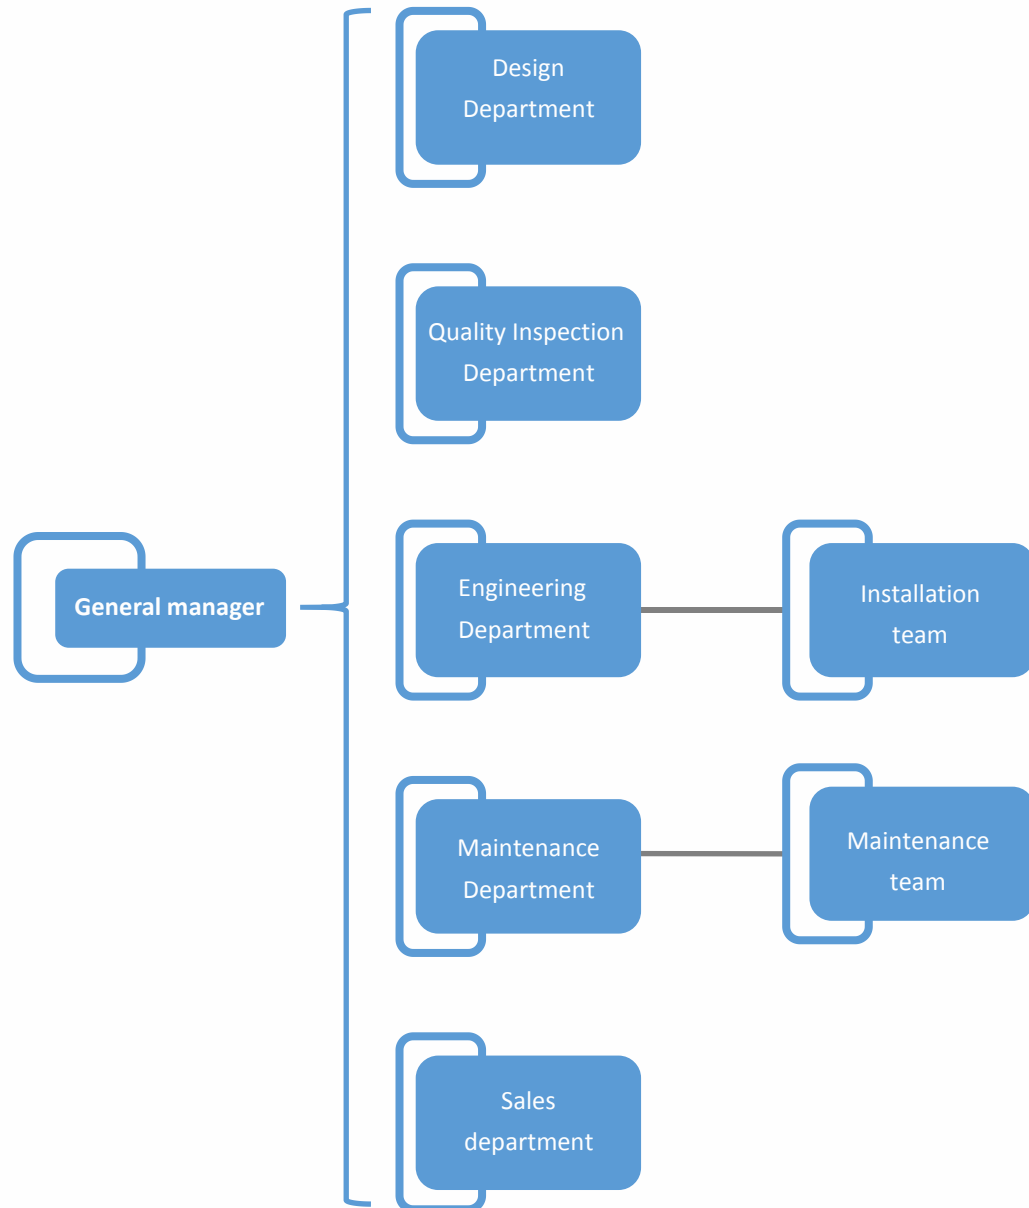

We are a reliable partner in all aspects of our business — being trustworthy is paramount for us.

•ENVIRONMENT

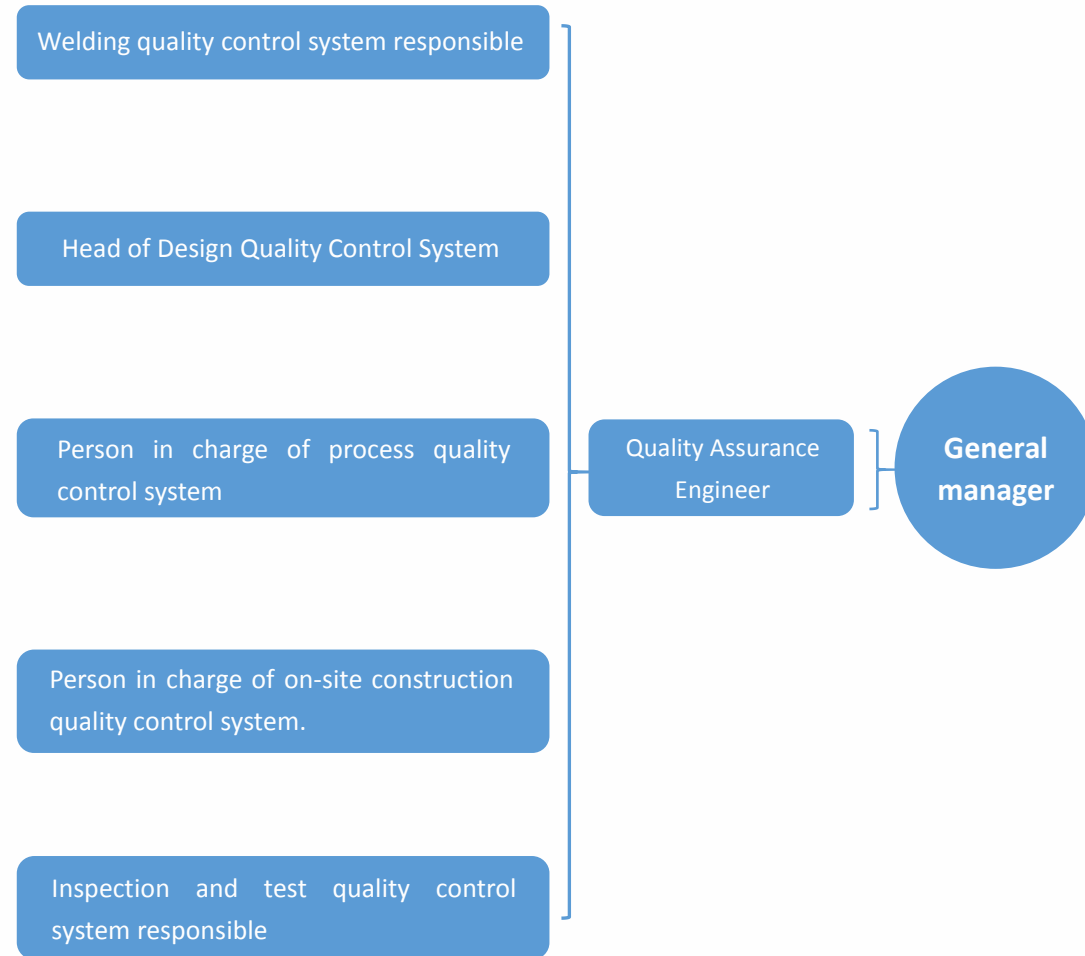

We focus on the environment in all of our business activities, both onshore and offshore.

Passenger elevator

Our company the flourishing developments in the construction industry, elevator is indispensable to the buildings. Express passenger elevator is high quality elevator that integrates the excellent performances and comfortable experience into one. It is your best choice in residence, commercial building, office building, commercial center, hotel, restaurant etc. Express passenger elevators are ample in varieties, e.g. passenger elevator with machine room, small machine room elevator, machine room-less elevator, low speed elevator, medium speed elevator, high speed elevator. Express passenger elevators with complete specifications and beautiful decoration satisfy different requirements from various users in all walks of life in an omni-bearing way.

Observation elevator

Super enjoyment of mobile scene

Fine and exclusive observation elevator enhances building grade. It highlights the whole building. Observation elevator is a mobile scene. Passengers can watch the scenery outside the car when riding in the elevator. It has fine and exquisite visual aesthetics, perfect and comfortable travel. It applies modern new material and new fully computerized, vector type variable frequency speed regulation (VVVF) control technology. It combines with data network system modular structure, the latest machining craft & technology. It is mainly installed in hotels, shopping malls, and high-rise office buildings.

Villa elevator

The structure of the private house determines that when choosing a home elevator or a villa elevator, the machine room-less home elevator structure should be adopted, thereby saving construction costs and construction space to the greatest extent, while taking care of the appearance and aesthetics of the house.

Model of villa elevator:

- Traction type villa elevator
- Steel belt villa elevator
- Forced drive villa elevator

Advantages:

- Running smoothly
- Intelligent control
- Safe operation
- Low noise
- Flexible optional door opening direction

Moving walk

Let's pleasantly enjoy a happy life in movements

Moving walk can not only meet the transportation problem of the large flow of people, and can meet the walking long distances and transport, baggage car, baby carriages, shopping cart, disability and other vehicles, so that people ride especially feeling Rulvpingdi down the stairs on the occasion of the shopping, greatly and people's travel and shopping.

Escalator

Escalator series products have been products according to the current international standard and Chinese standard. It fully applies the novel materials and advanced technology both at home and abroad to design and manufacture the escalators. It has the features such as smooth running, low noise, fine durability, convenient repair, fine and exquisite structure, consummate lift-way, remarkable belt-way, attractive outline model, magnificent design style with gentle modern flavor. A safe, cozy and beautiful escalator can let you enjoy the pleasant and comfortable moment every day.

Reliability

The drive unit that uses high-precision reducer and 6-pole motor features high torque, low noise, stable transmission and good shock absorption.

Finite element analysis is used in truss system design to achieve stable structure, high rigidity and strong supporting capacity. Angle steel is applied in the structure and corrosion.

High-duty structural design, reliable transmission components and different waterproof and anti-corrosion treatments enable the product to adapt to various installation environment.

Freight elevator

Bear with any heavy load at ease

Freight elevator applies fully computerized modular elevator special-purpose control system, effective and reliable drive mode, gentle and sensitive WVF variable frequency door machine. It can flexibly carry with any heavy loads at ease under various working conditions. High strength car structure, anti-collision strip, light curtain door can satisfy various goods transport uses. It adapts to different building structures. It can competently bear with any heavy loads at ease. It creates a brand-new goods delivery concept.

25%

It saves 25% if total elevator area.

40%

It reduces 40% of space occupation rate

Car elevator

It deducts extraordinary travel experiences

Automobile elevator introduces well-developed international car elevation technology. It develops and manufactures automobile elevator through absorption, transformation and improvement. Advanced technology removes shaking car problem due to noise, burdened traction system and uneven force to elevator car. It optimizes characteristics of the product series.
